- Web Development - Coderhouse
- JavaScript - Coderhouse
- React JS - Coderhouse
- Google UX Design Professional Certificate — Google / Coursera
- Google AI Essentials — Google / Coursera

LANGUAGES

Spanish: Native

English: Intermediate - technical reading and documentation

MIRCO RODRÍGUEZ

FRONTEND DEVELOPER

React • Next.js • TypeScript • APIs

PROFESSIONAL SUMMARY

Frontend Developer with 2+ years of professional experience building and maintaining web applications, with a strong focus on React, Next.js, and TypeScript.

Experienced in owning the full development lifecycle independently, from UI implementation and API/database integrations to deployment, analytics, and production maintenance. Additional hands-on experience with Node.js, Supabase, process automation, technical SEO, and lead-generation systems.

PROFESSIONAL EXPERIENCE

Frontend Developer - Pro Consultores (Mexico)

Sep 2024 - Present

- Built and maintained 20+ websites and web applications, primarily using React, Next.js, and TypeScript, taking ownership from implementation through deployment and production maintenance.
- Developed an end-to-end lead generation platform covering frontend development, integrations, production deployment, technical SEO, and Google Ads; at its peak, it generated approximately **3,000 leads per month** and around **6,000 monthly organic clicks**.
- Integrated web applications and forms with external APIs and services using Node.js, connecting platforms such as Supabase, Google Sheets, Airtable, and Monday.
- Designed and implemented a production WhatsApp bot for lead pre-qualification using n8n and Supabase, with multi-step conversational flows, state persistence, validation logic, and user handoff.
- Built and maintained backend services and database structures with Supabase, including PostgreSQL, Row Level Security (RLS), Storage, table relationships, and authentication flows.
- Improved performance, accessibility, and technical SEO using Lighthouse/PageSpeed, focusing on asset optimization, image delivery, font loading, metadata, sitemap, and robots configuration.

Freelance Web Developer & Independent Projects

Jul 2024 - Present

- Developed end-to-end websites for clients, turning high-fidelity designs into responsive, production-ready applications using React and modern web technologies.
- Built and maintained independent projects with Next.js and Supabase, applying Vitest testing, web accessibility practices, technical SEO, and performance optimization.
- Integrated forms, APIs, and third-party services, while also handling analytics setup and production deployment.
